

# SRI BALAJI COIR PRODUCTS

# INTRODUCTION

Welcome to Sri Balaji Coir Products, your trusted destination for high-quality, eco-friendly coir products. Established in May 2019, we are committed to offering sustainable solutions for homes, gardens, and businesses. Our diverse range includes coir handicrafts, coir garden articles, coco peat, coir doormats, and various other natural coir products.

At Sri Balaji Coir Products, we believe in promoting a greener planet by providing biodegradable and durable alternatives to synthetic products. Whether for home décor, gardening, or commercial use, our coir products combine functionality with sustainability.

# VISION & MISSION

## **Our Vision**

To be a leading provider of sustainable coir products that promote eco-conscious living while maintaining superior quality and affordability.

## **Our Mission**

To deliver high-quality, natural coir products that enrich homes, gardens, and commercial spaces while fostering a sustainable and environmentally friendly future.

# OUR PRODUCTS

- COIR PITH / COCOPEAT
- COIR GARDEN ARTICLES
- COIR TUFTED DOORMATS
- COIR MATTINGS

# COIR PITH / COCOPEAT

Coir pith, also known as coco peat, is a byproduct of coconut fiber extraction from the husk of coconuts. It is a spongy, lightweight, and highly absorbent material composed of fine particles and cellulose-rich fibers. Coir pith is primarily used as a growing medium in horticulture and agriculture due to its excellent water retention, aeration, and eco-friendly properties.

Coir pith is typically processed, washed, and compressed into blocks, bricks, or grow bags for easy storage and transport. It is widely used as a soil amendment, hydroponic growing medium, and eco-friendly alternative to peat moss.

## Benefits:

- High water retention and aeration properties
- 100% organic and biodegradable
- Promotes healthy plant growth
- Eco-Friendly & Sustainable
- Enhances Soil Health
- Pest & Disease Resistant
- Lightweight & Easy to Handle

LOOSE COCOPEAT AVAILABLE IN  
1KG PACKETS AND 25 KG BAGS

COCOPEAT BLOCKS AVAILABLE  
IN 650GMS AND 5 KG BLOCK

650 GMS BLOCK

5 KG BLOCK

# COIR GARDEN ARTICLES

Coir garden articles, such as coir pots, hanging baskets, and wall hangers, are natural, biodegradable, and eco-friendly gardening solutions made from coconut husk fibers. These products offer a sustainable alternative to plastic-based gardening materials and are ideal for both indoor and outdoor use. Coir garden articles provide excellent aeration, moisture retention, and a natural aesthetic, making them popular among home gardeners, landscapers, and plant enthusiasts.

## PRODUCTS IN COIR GARDEN ARTICLES

- COIR POTS
- COIR HANGING BASKETS
- COIR WALL HANGERS
- COIR POLE / COCO STICKS

## AVAILABLE IN SIZES

COIR POT- 4 INCH TO 8 INCH

COIR HANGING BASKET-10INCHES & 12 INCHES

COIR WALL HANGERS- 10 INCHES & 12 INCHES

COIR POLE -1 FT TO 5 FT

# COIR TUFTED DOORMATS

Coir tufted doormats are high-quality, durable mats made from natural coconut fibers (coir). These mats are crafted by tufting coir fiber into a PVC or rubber backing, providing strength and stability. The coir surface is dense, rough, and effective for scraping dirt and moisture from footwear, making them ideal for entrances.

Coir doormats are available in various sizes, thicknesses, designs, and colors, often featuring printed patterns, stenciled designs, or custom branding. They are eco-friendly, biodegradable, and highly resistant to wear and tear, making them a sustainable and long-lasting choice for households and businesses alike.

## Benefits:

- Excellent Dirt Removal
- High Moisture Absorption
- Eco-Friendly & Sustainable
- Durable & Long-Lasting
- Slip-Resistant Backing
- Attractive Aesthetics
- Easy Maintenance
- Resistant to Pests & Fungi

CUSTOMIZABLE DESIGNS FOR BULK QUANTITIES

# COIR MATTINGS

Coir matting is a versatile, eco-friendly flooring and erosion control solution made from the fibrous husks of coconuts. These fibers, known for their natural strength and water resistance, are processed and woven into various forms for residential, commercial, and environmental use.

## Key Characteristics

- **Material:** Derived from the "coir" (the protective layer between a coconut's outer skin and inner shell).
- **Durability:** High tensile strength allows it to withstand heavy foot traffic and harsh environmental conditions.
- **Eco-Friendly:** 100% natural, renewable, and **BIODEGRADABLE**

**Texture:** Coarse and "bristly," making it an exceptional scraper for dirt and mud.

# WHY CHOOSE US ?

**100% Natural & Sustainable:** Our products are made from high-quality coir, ensuring an eco-friendly alternative to synthetic options.

**Durability & Quality:** We prioritize superior craftsmanship and long-lasting performance.

**Versatile Product Range:** From gardening solutions to home decor, we offer a wide variety of products for different needs.

**Eco-Conscious Choice:** Choosing coir products helps reduce carbon footprint and supports sustainable living.

**Certified Expertise & Government Recognition:** Diploma in Coir Technology and registered supplier with the Coir Board, Government of India.
